

March 12th, 2008**Request for Dysferlin cDNA**

To request a *dysferlin* cDNA, please circle the desired construct(s) listed below. Please sign and return the completed form via mail or fax to the Jain Foundation using the contact information given above.

(a) Human *dysferlin* - original - NM_003494(b) Human *dysferlin* - v1 - DQ267935(c) Mouse *dysferlin* - trans. var. 2 - NM_001077694(d) Mouse *dysferlin* - trans. var. 1 - NM_021469**Conditions of use**

- 1) Any publications resulting from the use of these cDNAs should acknowledge the Jain Foundation Inc. by including the statement "the (mouse or human) dysferlin cDNA was obtained as a gift from the Jain Foundation Inc." in the **methods section** of the paper.
- 2) The recipient will not distribute these cDNA to other laboratories, but instead will refer researchers seeking use of the cDNA to the Jain Foundation Inc. We ask this for two reasons.
 - a) To ensure the quality of the cDNAs being sent.
 - b) So that the Jain Foundation Inc. is aware of who is using the constructs and can make contact with new researchers interested in the dysferlin field.
- 3) The recipient is free to modify these cDNAs in any way that is useful for the advancement of dysferlin research.
- 4) If any defects, problems or other concerns are discovered with any of the constructs, the recipient will notify the Jain Foundation immediately, so that the problem can be resolved.
- 5) The Jain Foundation claims no rights or liability resulting from the use of these cDNAs, or constructs derived from them.

We wish you the very best of luck in all your experiments!

-The Jain Foundation Team
